Issues

2. What is the applicable rule for determining reimbursement for the disputed services?
3. What is the recommended payment amount for the services in dispute?
4. Is the requestor entitled to reimbursement?

Findings

1. Review of the submitted documentation finds no information to support that the disputed services are subject to a contractual agreement between the parties to this dispute.
2. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables was not requested.
3. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code 90718, date of service June 14, 2010, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 73140, date of service June 14, 2010, has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. These services are classified under APC 0260, which, per OPPS Addendum A, has a payment rate of \$44.90. This amount multiplied by 60% yields an unadjusted labor-related amount of \$26.94. This amount multiplied by the annual wage index for this facility of 0.9578 yields an adjusted labor-related amount of \$25.80. The non-labor related portion is 40% of the APC rate or \$17.96. The sum of the labor and non-labor related amounts is \$43.76. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,175. The outlier payment amount is \$0. The total APC payment for this line is \$43.76. This amount multiplied by 200% yields a MAR of \$87.52.
 - Procedure code 29131, date of service June 14, 2010, has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 0058, which, per OPPS Addendum A, has a payment rate of \$71.03. This amount multiplied by 60% yields an unadjusted labor-related amount of \$42.62. This amount multiplied by the annual wage index for this facility of 0.9578 yields an adjusted labor-related amount of \$40.82. The non-labor related portion is 40% of the APC rate or \$28.41. The sum of the labor and non-labor related amounts is \$69.23. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,175. The outlier payment amount is \$0. The total APC payment for this line is \$69.23. This amount multiplied by 200% yields a MAR of \$138.46.
 - Procedure code 99283, date of service June 14, 2010, has a status indicator of V, which denotes a clinic or emergency department visit paid under OPPS with separate APC payment. These services are classified under APC 0614, which, per OPPS Addendum A, has a payment rate of \$140.18. This amount multiplied by 60% yields an unadjusted labor-related amount of \$84.11. This amount multiplied by the annual wage index

for this facility of 0.9578 yields an adjusted labor-related amount of \$80.56. The non-labor related portion is 40% of the APC rate or \$56.07. The sum of the labor and non-labor related amounts is \$136.63. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,175. The outlier payment amount is \$0. The total APC payment for this line is \$136.63. This amount multiplied by 200% yields a MAR of \$273.26.

- Procedure code 90471, date of service June 14, 2010, has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 0436, which, per OPPS Addendum A, has a payment rate of \$25.67. This amount multiplied by 60% yields an unadjusted labor-related amount of \$15.40. This amount multiplied by the annual wage index for this facility of 0.9578 yields an adjusted labor-related amount of \$14.75. The non-labor related portion is 40% of the APC rate or \$10.27. The sum of the labor and non-labor related amounts is \$25.02. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,175. The outlier payment amount is \$0. The total APC payment for this line is \$25.02. This amount multiplied by 200% yields a MAR of \$50.04.
 - Procedure code 96372, date of service June 14, 2010, has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 0436, which, per OPPS Addendum A, has a payment rate of \$25.67. This amount multiplied by 60% yields an unadjusted labor-related amount of \$15.40. This amount multiplied by the annual wage index for this facility of 0.9578 yields an adjusted labor-related amount of \$14.75. The non-labor related portion is 40% of the APC rate or \$10.27. The sum of the labor and non-labor related amounts is \$25.02. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,175. The outlier payment amount is \$0. The total APC payment for this line is \$25.02. This amount multiplied by 200% yields a MAR of \$50.04.
4. The total allowable reimbursement for the services in dispute is \$599.32. The amount previously paid by the insurance carrier is \$315.31. The requestor is seeking additional reimbursement in the amount of \$157.98. This amount is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$157.98.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$157.98 reimbursement for the disputed services.
